MEET THE NEIGHBOURS OF THE NEIGHBOURS
during COVID-19 time
- #9May2020

A European Union initiative of cultural breaking-out for youth from Europe, Africa and Mediterranean
As the current Covid-19 crisis is keeping the majority of the world’s student population out of school and confined into their own homes, this EU initiative aims to offer them a free access to a "platform" of opportunities to overcome the “cultural confinement” and meet the different cultures and civilisations of the "neighbours of their neighbours", through the creative works of film directors from different countries of Africa, Mediterranean and Europe.

This streaming platform will open up a digital window of mutual understanding and inter-cultural dialogue, giving free access to selected quality films from Africa and Mediterranean to the European students and, at the same time, free access to carefully selected European films to the African and Mediterranean ones, from both schools and universities, directly at homes.

The collaboration with the “Cineteca” and “Festival Scope” is guaranteeing both a selection of films and a streaming access of high quality. Films will be presented by important personalities of the cinema’s world.

The selected films are available on a first-come first-served basis for up to 1000 users for each streaming and offering every week different new titles.

Freely available on your screens from 9th of May to the 4th of June

Basis for up to 1000 users for each streaming
