## Share the JAES new video: 2 Unions, 1 Vision!

## Africa-EU: Collaboration for win-win negotiations in multilateral fora?

The second lunch-time seminar on the future of Africa-EU relations organized by the European Commission/ DG EuropeAid yielded a variety of pertinent recommendations about the way both continents could work together before and during multilateral negotiations and thus tackle global challenges in the future. [Read more...](#)

## The European Commission kicks off the first in a series of lunch-time seminars on the future relationship between the EU and Africa

DG EuropeAid and DG Research & Innovation invited 50 African and European representatives from 30 countries to brainstorm on key messages regarding the challenges of investing in STI in view of the

Addis Ababa, Ethiopia*

IV Africa-EU Summit in April 2014. [Read more...](#)

## **Agricultural research that incorporates innovation and experimentation by smallholder farmers**

For a long time Agricultural Research for Development (ARD) was regarded as the private domain of scientific experts. The traditional linear model – researchers providing the technologies that are supposed to be taken up by the outreach services that in turn wait for farmers to adopt them – is disappearing. [Read more...](#)

## **ERAfrica: A new model for Europe-Africa research cooperation**

Cooperation with Africa in the field of science, technology and innovation has strengthened in recent years. Yet this research is still often funded out of development cooperation budgets, in which case the final word rests with external donors. [Read more...](#)

## **Reducing vulnerability to climate change, land degradation and drought**

Find our gear new features on the website: First of the list, a case study on the Green Wall for the Sahara and the Sahel Initiative. From the initial idea, launched in 2007, of a line of trees crossing the African desert, it now covers a range of initiatives across over 20 countries supporting sustainable, income-generating land management practices.
